Safety Information

Transportation Safety

- Please observe all transportation laws and regulations.
- Please drive with both hands on the wheel.
- ❖ Drive Responsibly DO NOT TEXT AND DRIVE

Airports

Please follow all flight safety regulations and do not use your phone during flight.

Toxic Chemicals

Do not use your mobile phone around fuels or chemicals.

Explosion Hazard

Please observe related limitations and do not use your mobile phone around an area where explosions may occur.

Accessories and Batteries

Please use only authorized accessories and batteries.

Water

Your phone is not waterproof. Keep it away from water and liquids.

SOS Emergency Calls

❖ Make sure your mobile phone is switched on and in a service area. In home screen, tap the phone key and dial 911.

Cleaning and Maintenance

- Avoid using the handset and accessories in excessively moist areas to avoid malfunction.
- Use a soft, dry cloth to clean the handset, battery and charger.

❖ Do not use alcohol, thinner, benzene or any other solvent to clean the handset.

WARNING

- ❖ Do not expose batteries to extreme temperatures (below -8°C (18°F) or above 43°C (110°F).
- Immediately stop using the battery if it produces an odor, cracks and leaks, overheats, distorts or has any other type of physical damage.
- ❖ Avoid using the charger near or around liquids. If the charger comes in contact with water or any liquids, immediately unplug it from the outlet to reduce the risk of overheating, charger malfunction, electric shock or fire.
- ❖ Be careful with the disposal of used batteries. Do not throw away batteries with daily waste. Please follow local environmental laws and guidelines for proper waste disposal.
- ❖ Please turn off your mobile phone when near medical instruments.

Function Information

Power On and Off

On - Long press the Power key to switch the phone on.

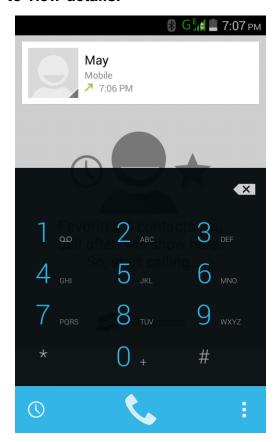

Off - In standby mode, long press on Power key until an options menu appears. Select OFF in the menu and confirm power off in the pop-up menu to switch off the phone.

Call Functions

On the dial keypad, enter the phone number and then click the dial key. If dialing an extension, you may click the dial pad icon in the bottom of the screen to open the interface and enter the number of the extension.

Call Logs

Every telephone number called and received will be saved in the phone's call log. All numbers in the call log can be dialed directly by clicking the contacts icon on the screen. When the number appears on the list, click it to view details.

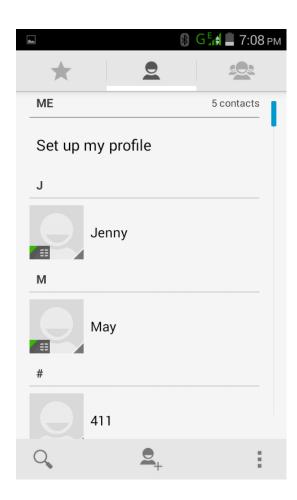

Call Settings

You may set different call settings on the phone which include Fixed Dialing Number, Voicemail Settings, Call Forwarding, and Call Waiting options. You can also set up IP dialing.

Contacts

- Open the application menu and click on "Contacts"
- There you will find your phone contacts and SIM card contacts
- The contacts are organized alphabetically by default

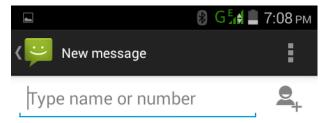

Messaging

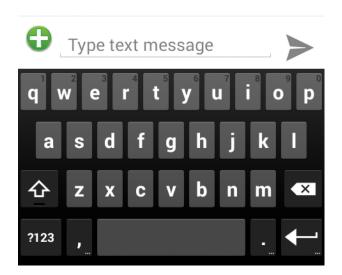

You may use this function to exchange text messages and multimedia messages with your family and friends. The messages to and from the same contact or phone number will be saved into a single conversation so you may see the entire message history conveniently.

Send an SMS

Home » Application Menu » Messaging » New message

- 1. Click to enter recipient (You may enter contacts from contact book or enter a new number)
- 2. Compose Message and Send

Email

Configuring e-mail account

Go to Setting-> Accounts and choose the type of email account you want to add. Enter the e-mail address and password If the system automatically recognizes the mailbox information, will automatically configure; if the system does not recognize, will require users to type IMAP mailbox, or POP3, enter the appropriate configuration information.

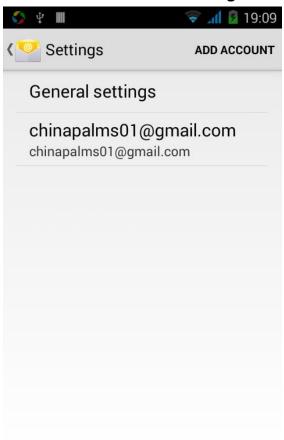

Gmail For example:

E-mail Address: johndoe@gmail.com

Password: john1

Configure multiple email accounts

Enter the Program Group screen - Select "Email" application - "Click on the menu button-select setting function - select "Add Account" feature

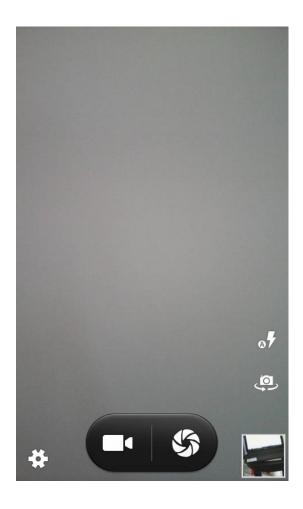

Camera

- 1. Home » Applications Menu » Camera

Select "Settings"- Select "storage"

Language

Select "Settings" - "Language & input" - Select "Language ", select English or other

****FCC Caution****

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This Mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: X444 (FCC ID: 2AIMEX444) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the **ear is** 0.41W/kg and when properly worn on the **body is** 1.30W/kg. This device was tested for typical body-worn operations with the back of the handset kept **10mm** from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a **10mm** separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these

requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of **1.0cm** must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
